2018 Rule and Policy Updates

- Voluntary Stewards
- Franchisors
- Deductions
- Affiliates
- Penalties & Interest
- Primary Contact Changes

Voluntary Stewards

- Voluntary stewards are non-resident in a province and have assumed responsibility for reporting and paying stewardship fees for their PPP
- New Policy and Agreements for each program (effective as of December 1, 2017)
- Voluntary steward notification date changed to Dec 1 from Dec 31

Franchisors

- MMSM and SO alignment with Recycle BC and MMSW
- Provision obligates non-resident franchisors for the PPP generated by their resident franchise system, thereby capturing all PPP supplied by all franchisees
- Franchisors are obligated whether they supply their franchisees or not
- Will need to pay a 2018 invoice, which requires a 2017 report.

Deductions

- Proposed policy deferred
- Report total supplied PPP, deduct quantities of materials supplied to consumers that are not managed in residential waste stream
 - Food service example
 - Include auditable data in Methodology
- Deductions vs Exclusions (IC&I, Transportation, Durable)
- Additional information requested from all stewards claiming deductions from their 2018 reports to support further analysis and to guide future policy development
- Form with guidance on WeRecycle Portal

Affiliates

- Affiliates of an organization typically report under one stewardship account
- Affiliated entities that wish to report separately must provide detailed information on affiliated/parent organizations
- Stewards must be over de minimis or other exemption thresholds; otherwise must report together
- Contact NSS

Penalties & Interest

- New Penalty and Interest Policy harmonizes approach for all four programs
- Promote fairness and consistency
- Stewards who accurately report on time and who pay invoices on time will not be affected by the new policy
- Interest applied first, 10% penalties follow

Primary Contact Changes

- New policy requires that Primary Contacts be appointed by a senior officer within their organization who has the authority to bind their organization
- Primary Contact Change Forms available:
 - Change an Existing Primary Contact
 - First Time Registration of Primary Contact

Using ABOMs

- Gathering material and weight data
- SKUs with similar packaging -- select a representative sample
- Straight and weighted average approaches
- Weighted ABOM recommended because it provides better accuracy with little additional work

Product	Weight	Sales %	Straight ABOM	Weighted ABOM
A	100 g	75%	150 g	125 g
B	200 g	25%		

Component Threshold Rule

- Package includes two or more material types; one a small portion
- Packaging component or ancillary element
- If material is less than 5% of overall weight, stewards may report under main material category

Program Allocations

- Stewards registered in more than one program; detailed sales or distribution data unavailable...
- Statistics Canada population data
- Number of stores in each province

Materials

- SK milk containers
- Paper: fibre and general use (BC), wrapping (SK)
- Carbonated and non-carbonated beverage containers
- Material list changes

Report Submission and Validation

- Portal submission requires: declaration; complete information; agreed terms and conditions; primary contact login
- All submitted reports are reviewed to ensure they have been filed correctly – vital to have accurate data for invoices and fee setting

A screenshot of a web application interface for submitting a report. Below the instructions is a section titled 'Declaration For 2018' with input fields for 'Company:' (containing 'Steward'), 'Steward No.:' (containing '1000002'), 'Name:', and 'Title:' (containing 'Senior Steward Services Specialist'). At the bottom, there is a note: 'Please record and retain your Steward No.'
