Mr. Allen Langdon
Chief Executive Officer
Circular Materials Atlantic

Dear Mr. Langdon,

Thank you for submitting the proposed Circular Materials Atlantic Packaging and Paper Products Stewardship Plan to the Board of Recycle NB for review and approval. The Board of Recycle NB is aware of the hard work that you and your team were required to accomplish in order to get this task completed. We are equally aware of the collaboration between Circular Materials Atlantic and Recycle NB staff as this plan was fine tuned before being presented to the Board for consideration.

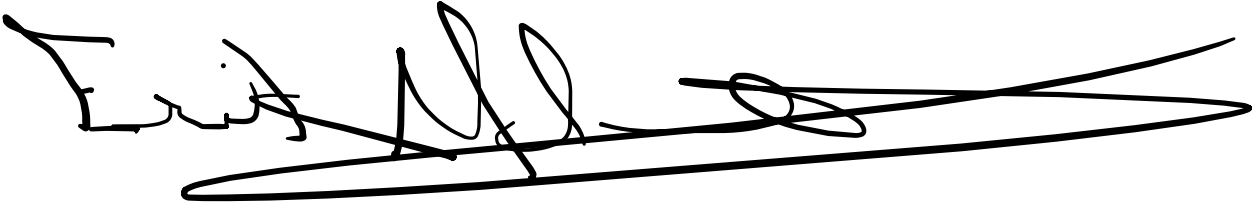

Please be advised that the Board of Recycle NB completed a comprehensive review of the proposed stewardship plan dated and submitted March 22, 2023, as well as having reviewed and considered the applicability of the Recycle NB Policy on Approving a Product Stewardship Plan.

As a result of our review of the stewardship plan and the associated policy, the Recycle NB Board has recorded in its meeting minutes the following decision: New Brunswick Stewardship Plan for Packaging and Paper dated March 22, 2023, and submitted to Recycle NB by Circular Materials Atlantic is **approved effective May 5, 2023**, and **will expire on December 31, 2026**. This decision will allow the launch of the first phase of the program to occur on or before November 1, 2023.

The Board of Recycle NB looks forward to a collaborative and cooperative partnership with Circular Materials Atlantic as the Packaging and Paper Products program is made available to the residents of the province.

If you have any questions in relation to this letter or its contents, please feel free to contact Mr. Jamie Seamans, Program Director, by calling (506) 454-8473 or by email at jamie.seamans@recyclenb.com or Mr. Frank LeBlanc, Recycle NB Chief Executive Officer, by email at frank.leblanc@recyclenb.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Erik Matchett', written over a horizontal line.

Erik Matchett
Board Chair
Recycle NB
