

Solicitation Number: RFP CMAB2025-03
Collection of PPP in Collection Catchment Areas in The Province of Alberta
Addendum # 2
Issued Date – October 15, 2025

The Proposal Submission Date is unchanged by Addendum #2.

Addendum #2 includes revision R1 and R2.

All other terms and conditions remain the same.

Addendum #2 includes responses to questions submitted to CM from September 15, 2025 till October 10, 2025.

R1 – Appendix L Multi Family Catchment Form

Replace Appendix L with the revised Appendix L found [here](#).

New MF number Properties 1198 and Units 55391.

A comparison document displaying the revisions can be found [here](#).

R2 – Appendix M Multi Family Pricing Form

Replace Appendix M with the revised Appendix M found [here](#).

15 new communities were added (Strathmore, Heritage Pointe, Okotoks, De Winton, Crossfield, Chestermere, Carstairs, Brooks, Sherwood Park, Leduc, Beaumont/Airdrie, Medicine Hat, Canmore, Edson, Harie Height), Moved Catchments for Wainwright.

A comparison document displaying the revisions can be found [here](#).

Questions Posed by Proponents:

1. **Question:** Would CM be willing to look at a full bid for catchment 8 that would have all the material coming back to Red Deer?

CM Answer: Yes, we will consider alternate proposals so long as we meet the required tonnages at the receiving facilities.

2. **Question:** Would CM be willing to look at a partial bid for catchment 6? Is there any flexibility on the material destined for Calgary being accepted in Red Deer?

CM Answer: Yes, we will consider alternate proposals so long as we meet the required tonnages at the receiving facilities.

3. **Question:** Would CM be willing to look at a partial bid for catchment 3? Is there any flexibility on the material destined for Edmonton / Hanna Or Calgary being accepted in Red Deer?

CM Answer: Yes, we would be willing to look at alternative proposals. Please see the updated Appendix J. Camrose is now proposed to go to Edmonton. This was an error.

4. **Question:** Curbside recycling cart configuration – if our current operations use two 240L carts for recycling streams, collected bi-weekly. Are we permitted to submit a bid based on continuing the use of these two 240L carts for the recycling streams, rather than transitioning to 360L carts for both streams? Specifically, would collecting the two 240L carts concurrently

Issued Date – October 15, 2025

on a weekly basis be acceptable, or is a transition to larger capacity carts required for every stream?

CM Answer: For new carts for PPP material, or as existing PPP carts break or wear out, we would like to ultimately transition to 360L carts as the standard for PPP collection.

5. **Question:** Multi-family dwelling collection pricing/bid requirements - The RFP requests pricing and/or bids for collections at multi-family residences. Is it mandatory to bid on the multi-family portion to be considered for the award, or could a bid omit this portion without penalty (e.g., loss of points or disqualification)? If a partial bid is allowed, could you provide guidance on how proposals that do not cover all property types will be evaluated?

CM Answer: It is not mandatory to bid on the multi-family section. A partial bid will be considered.
