# CELEBRATING ONE YEAR OF FOOD WASTE COLLECTION

**Thank you** to the thousands of Essex-Windsor residents who have embraced “Growing Green” by using the Green Bin regularly.

By placing food waste in the Green Bin instead of the garbage, residents help the Region to “Grow Greener “ by creating fertilizer and renewable thermal and electrical energy. This supports a greener region and preserves the lifespan of the Region’s only landfill.

It’s never too late to become a Green Superhero! For anyone not yet using the Green Bin for food waste and organics, consider giving it a try. “Growing Green” is easier than one might think.

# WINTER GREEN BIN TIPS

## Using the Green Bin all year makes a big difference.

*Winter can be tricky, but following a few simple tips will help you stay green during the colder months.*

### WHAT GOES IN THE BIN?

Scan the QR code for the Acceptable Materials list.

[www.ewswa.org](http://www.ewswa.org)

## TIPS TO PREVENT FREEZING

### The Bottom Line? Line The Bottom!

Line the bottom of the Green Bin with food-soiled paper products or packaging such as egg cartons, takeout cartons, etc.

### The Early Bird Doesn't Freeze.

If possible, set the Green Bin out **the morning of collection day by 6 a.m.**, not the night before.

### Protect Your Bin - Bring It In.

Store the Green Bin in a garage or shed - or place it against an outside wall - to protect it from snow, ice and extreme temperatures.

## TIPS FOR SET-OUT

### Don't Bank On It!

Snowbanks can make it harder to set out the Green Bin. Be sure to place the Green Bin on a cleared, level area on your property along the street— never on top of snowbanks. Remember: always try to use **Park-Point-Space**.

Download the **Recycle Coach** app for your Green Bin collection schedule, notifications and updates.

## Winter Roads Maintenance

During the winter months, main roads are cleared and salted first, followed by residential and secondary roads. Be sure to maintain a safe distance from snowplows and avoid pushing driveway snow back onto the road.

During winter snowfall, property owners are encouraged to:

- Park vehicles in driveways, not on the road.
- Maintain clear catch basins for proper drainage.
- Keep fire hydrants visible and snow-free.
- Clear sidewalks adjoining your property.
- Place garbage and recycle bins in the driveway approach, not on snow banks or the road.

Residents should wait to clear their driveway approaches until the plows have cleared the curb lanes.

## Natural Christmas Tree Drop-Off

LaSalle residents are reminded that natural Christmas trees will not be collected with regular garbage. Drop off natural Christmas trees to the designated areas at:

- River Canard Park (Malden Rd.)
- LaSalle Landing (Front Rd.)
- Optimist Park (Victory St.)
- Heritage Park (Heritage Dr.)
- Vince Marcotte Park (LaSalle St. and Normandy Rd.)
- Public Works Building (Judy Recker Cres.)

Trees will be picked up from these locations into February. These trees are chipped into mulch for town projects, and are also used on Fighting Island for natural regeneration.
